Subject: Regarding permission/approval for Internship of Students under IIC Research/Innovation Activity

Respected Sir,

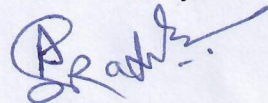

I respectfully submit that students, pursuing M.Sc. Biotechnology (2nd Year) Semester-III from Department of Biotechnology, Maharaja Surajmal Brij University, Bharatpur, Rajasthan, have approached for internship at our college. This internship program is conducted under the Research/Innovation Activity of the Institution's Innovation Council (IIC), an initiative of the Ministry of Education, Government of India. I believe that research environment and IIC-driven research/innovation ecosystem at college will significantly enhance their technical competence, research aptitude, and entrepreneurial skills. I assure you that these students will strictly adhere to institutional norms and complete all assigned tasks and reports as per IIC guidelines.

I kindly request you to grant the permission to these students (details mentioned in following given table) for joining the internship program proposed from 06/03/2026 to 05/04/2026 under my supervision.

Sr. No.	Name of Students	Father's Name	Email Id	Contact No.

Subject: Recommendation for Internship under IIC Research/Innovation Activity

Respected Sir/Madam,

This is to formally recommend Mr./Ms. **Chanchal Kumari**, a student of M.Sc. Biotechnology (2nd yr) Semester-III at our institution, for undertaking an internship under the Institution's Innovation Council (IIC), an initiative of the Ministry of Education, Government of India.

The student has expressed keen interest in carrying out internship research work under the supervision of **Dr. Arun Ratn**, Assistant Professor, Department of Zoology, at your esteemed institution for the period from 06.03.2026 to 05.04.2026.

Mr./Ms. **Chanchal Kumari** has demonstrated consistent academic performance, discipline, research aptitude, and sincere interest in innovation-driven activities. We are confident that working under the guidance of the above-mentioned supervisor will significantly enhance the student's technical knowledge, research competency, and innovation skills.

We fully support this application and recommend the student for the proposed internship duration. Kindly consider this request favorably.

Thanking you.

Sincerely,

BONAFIDE CERTIFICATE

This is to certify that Mr./Ms. **Priya Dixit**, Enrolment No. 18/19465, is a bonafide student of M.Sc Biotechnology (2nd yr) Semester-III at Department of Biotechnology, Institute of Applied Sciences, Maharaja Surajmal Brij University.

As part of academic course curriculum and innovation-oriented learning, the student intends to undergo an internship under the Institution's Innovation Council (IIC) activity at Sanatan Dharm College, Muzaffarnagar, Uttar Pradesh-251001, India for the period from 06.03.2026 to 05.04.2026.

The institution confirms that the above-mentioned student is currently enrolled and pursuing the said program during the academic session 2024-2026.

This certificate is issued upon the request of the student for internship purposes.

Subject: Application for joining one month Internship under IIC Research/Innovation Activity

Respected Sir,

I respectfully submit this application seeking permission to undertake an internship under the Research/Innovation Activity of the Institution's Innovation Council (IIC), an initiative of the Ministry of Education, Government of India, at your esteemed institution.

I am presently pursuing M.Sc. Biotechnology (2nd Year) Semester-III at Department of Biotechnology, Maharaja Surajmal Brij University, Bharatpur, Rajasthan. As part of my academic and innovation-oriented learning objectives, I am keen to participate in research/innovation activities in the field of Biological Science.

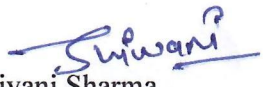

I believe that exposure to your institution's research environment and IIC-driven research/innovation ecosystem will significantly enhance my technical competence, research aptitude, and entrepreneurial skills. I assure you that I will strictly adhere to institutional norms and complete all assigned tasks and reports as per IIC guidelines.

I am enclosing herewith my Bonafide Certificate, Recommendation Letter from my parent institution, and No Objection Certificate for your kind consideration.

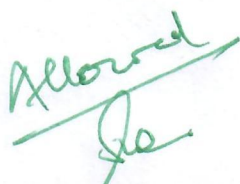

I kindly request you to grant me permission to join the internship for the proposed duration from 06/03/2026 to 05/04/2026 under the supervision of Dr. Arun Ratn, Assistant Professor, Department of Zoology.

Thanking you in anticipation.

Yours sincerely,

Shivani Sharma

Subject: Recommendation for Internship under IIC Research/Innovation Activity

Respected Sir/Madam,

This is to formally recommend Mr./Ms. **Shiwani Sharma**, a student of M.Sc. Biotechnology (2nd yr) Semester-III at our institution, for undertaking an internship under the Institution's Innovation Council (IIC), an initiative of the Ministry of Education, Government of India.

The student has expressed keen interest in carrying out internship research work under the supervision of **Dr. Arun Ratn**, Assistant Professor, Department of Zoology, at your esteemed institution for the period from 06.03.2026 to 05.04.2026.

Mr./Ms. **Shiwani Sharma** has demonstrated consistent academic performance, discipline, research aptitude, and sincere interest in innovation-driven activities. We are confident that working under the guidance of the above-mentioned supervisor will significantly enhance the student's technical knowledge, research competency, and innovation skills.

We fully support this application and recommend the student for the proposed internship duration.

Kindly consider this request favorably.

Thanking you.

Sincerely,

Arvind Kumar, Ph.D., Postdoc

Chanchal Kumari

Student of M.Sc. Biotechnology (Semester-III) from the Department of Biotechnology, Maharaja Surajmal Brij University, Bharatpur, Rajasthan, has successfully completed her internship under the Research/Innovation activity of Institutional Innovation Council (IIC) at the Department of Zoology, Sanatan Dharm College, Muzaffarnagar-251001, Uttar Pradesh, India.

Her internship research work titled "Geno-toxicological Endpoints" and was accomplished under the guidance of **Dr. Arun Ratn, Assistant Professor, Department of Zoology** during a period of 4 weeks from 6 th March 2026 to 5th April 2026. She actively participated in laboratory works, experimental procedures, and gained practical exposure in the areas of Environmental and systemic toxicology, Nanotoxicology, Molecular Biology, etc. Her performance during the internship was found to be excellent. She was sincere, disciplined, and demonstrated a keen interest in research and innovation activities. We wish her success in future academic and professional endeavours.

Internship Completion Report

One-Month Internship Program under IIC Research/Innovation Activity

Organized By: Institution's Innovation Council (IIC)

Institution: Sanatan Dharm College, Muzaffarnagar, Uttar Pradesh.

Internship Duration: From 06/03/2026 To 05/04/2026

Number of Students Participated: 06 (Six only)

Faculty Supervisor/Mentor: Dr. Arun Ratn, Assistant Professor, Department of Zoology.

The one-month internship program under the Institution's Innovation Council (IIC) Research/Innovation Activity was successfully conducted with the objective of promoting research aptitude, innovation skills, and practical exposure among students.

A total of six students (Chanchal Kumari, Neeteesh Upadhyay, Nidhi, Pradhuman Singh, Priya Dixit and Shiwani Sharma) of M.Sc. Biotechnology (2nd Year) Semester-III from Department of Biotechnology, Maharaja Surajmal Brij University, Bharatpur, Rajasthan, actively participated in the internship program. During the internship period, the students were engaged in research-oriented tasks, innovation-based activities, literature surveys, data collection, technical discussions, and preparation of project outcomes under the guidance of faculty mentors.

The program aimed to bridge the gap between theoretical learning and practical implementation while encouraging creativity, problem-solving abilities, and teamwork among participants.

Objectives of the Internship Program

- To enhance students' understanding of research and innovation methodologies.
- To provide practical exposure in project development and technical problem-solving.
- To develop analytical, communication, and teamwork skills among students.
- To encourage innovative thinking and idea generation.
- To familiarize students with documentation, report writing, and presentation techniques.

Internship Activities Conducted

During the internship period, the following activities were conducted:

1. Genotoxicity analyses: Micronuclei (MN), CAT and COMET
2. Nanoparticles (Silver and Gold) synthesis via chemical reduction method and green synthesis of NMs
3. Media Preparation, Bacterial culture and Blood groups estimation
4. Assessment of Molecular and Biochemical markers.
5. Microscopy, Microtomy, Paper Chromatography, Histopathology and Fish dissection.
6. Haemocytometer, pH analyser, Centrifuge machine handling.
7. Organ-specific bioindicators evaluation.
8. Morphology and behaviour of aquatic animals.
9. Preparation of Internship reports and Completion certificates distribution.

Outcomes of the Internship Program

The internship program resulted in the following outcomes:

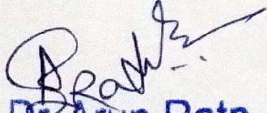

- Students gained practical exposure to research and innovation activities.
- Improvement in technical and analytical skills was observed among participants.
- Students developed confidence in handling real-world technical challenges during working in research laboratory.
- Students learned about report writing, presentation, and documentation skills.
- Innovative ideas and project concepts were generated during the internship.
- Enhanced collaboration and teamwork among students.

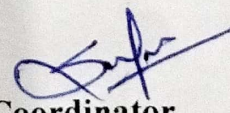

Student Performance and Evaluation

The performance of students was continuously monitored through weekly reviews, tasks submissions, presentations, and mentor feedback. All six students successfully completed the internship program and demonstrated satisfactory participation and learning outcomes.

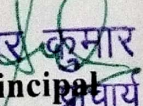

Conclusion

The one-month internship program conducted under the Institution's Innovation Council (IIC) Research/Innovation Activity was successfully completed. The program proved beneficial in enhancing students' research orientation, innovation capabilities, and practical knowledge. The active participation of students and guidance contributed significantly to the successful execution of the internship program. Future internship programs of similar nature are recommended to further strengthen research culture and innovation practices among students.
